

Friends of Moss Landing Marine Labs Presents

# Sasalu Tawamudu - an Integrated Community-Based Approach for Fijian Coral Reef Conservation

## Wed., March 31st 7:00 PM

@ the Labs . . . . .

**Speakers: Dan Presser, Owner, FourWinds Travel**

**Victor Bonito, Director and Head Scientist, Reef Explorer Fiji Ltd.**

### *About the speakers:*

*As owner of FourWinds Travel, Dan has been in jungles from Borneo to Argentina to Africa. Recently, Dan began working on Coral Reef Restoration in Fiji with Victor Bonito. Victor Bonito is a coral reef ecologist (M.S. Biology) from the United States who has studied and explored reefs worldwide. Victor's company, Reef Explorer Fiji Ltd., is based in the Fiji Islands with the mission to conserve Fiji's natural and cultural resources through research and education.*

### **About the talk:**

Coral reefs worldwide are diminishing and in desperate need of restoration. Merely working with the reefs in the water isn't enough. Fixing what goes into the ocean from ashore has to be mitigated as well. Learn about Fiji's multi-systemic approach to repairing its coral reefs and how you can help.

The evening will be a combination of presentation and audience participation. Come to the Labs for an interactive and casual evening of **Science - Café** style.

**Start Time:** 7pm (Seating is Limited, early arrivals welcome)

Moss Landing Marine Laboratories, 8272 Moss Landing Road, Moss Landing

**Cost:** FREE, Refreshments provided , Contact: 831-771-4100
