  SJSU/Moss Landing Marine Labs
  Email: Kathleen.donahue@sjsu.edu
  Office: 831-771-4405
  Please contact Kathleen if you have any questions or want additional information!

The SJSU-MLML Facilities Supervisor is responsible for the preventive maintenance, construction and upkeep of all facilities, related equipment and vehicles at six different locations that comprise the MLML campus. Specifically, the incumbent leads a team of 3 Facilities Mechanics. The position is responsible for service, repair and inspection of heating, plumbing, high, low voltage and emergency electrical, mechanical, fire detection, air conditioning and sea water pumping systems and the mechanical, electrical systems and electronic controls associated with such systems in a centralized plant (Main Building) and in decentralized utilities centers throughout the Lab's properties. The Facilities Supervisor is also responsible for overseeing and completing major and minor construction projects at MLML including facility interior and exterior structures, materials and finishes as well as Group I and Group II equipment. In addition, the Facilities Supervisor is responsible for vehicle maintenance, custodial and landscaping upkeep throughout the laboratories and the oversight of the MLML machine shop facilities. The incumbent directs and oversees the work of outside contractors and subcontractors, a custodial contracting group, 3 facilities mechanics, student helpers and serves as the liaison between MLML and other campus facility groups.
